

CCK-R

°CCK-R

The CCK-R is a cable cutting kit designed to cut and seal cable ends when field cuts are required. Used to cut cable from 3/64" to 3/16" diameter.

° Product Information

cable size

3/64" 1.2 mm - 3/16" 5 mm

function

cable cutting kit

installation instructions

Option 1: If gripper has side exit, pass cable through gripper; cut excess cable. Apply glue to last 1/2" of cable. Make sure excess does not ball up at the end.

Option 2: Cut cable before inserting into gripper. Apply glue to last 1/2". Make sure excess glue does not ball up on end. Allow time to dry and insert cable into gripper.

If cable becomes frayed, cut a fresh end and reapply glue.
