

CF1M

°CF1M

CF1M is Arakawa's gripper-type rail clips available for hanging cable from the CRE Rail system. Simply poke the cable end into the gripper and it holds. CF1M has a metallic finish to match the rail if one chooses to use the rail without the cover.

° Product Information

cable size
3/64" 1.2 mm

maximum weight
3/64": 40 lbs. 18 kg

function
rail clips for CRE rail

installation instructions
CF1M: Install the CF1M rail clip on the CRE rail. To ensure system strength, make sure the rail clip remains flush against the wall. For cable installation, depress the push pin on the gripper and insert soldered cable end. Cable must be inserted far enough to hold firmly, but not so far as to inhibit clip movement on the rail.
